

## ABOUT US

**SUPRAMECA** is an innovative company specialized in engineering, design and manufacturing of devices, mechanisms, equipment and systems using a pyrotechnic energy source.

**SUPRAMECA** develops through dual activities and the company transfers technology between the military and the civilian sectors.

The founding team comprises experienced engineers from the

aeronautics, space and defense fields. They master the whole range of techniques and processes involved in the design, development, industrialization, manufacturing and marketing of pyrotechnic systems.

"Involvement, Dynamism, Reactivity, Flexibility, Ingenuity and Pragmatism are the key values of the **SUPRAMECA** Team"

**SUPRAMECA** is organized so as to efficiently meet the needs of its varying customer base.

As a new player on the market, SUPRAMECA is breaking with existing structures by adopting a new vision and new practices, constituting sources of innovation for its customers.
